Capitalist & Entrepreneur

21st April 2020

REPORT

“Leadership Talk Series” with Dr.Gururaj “Desh” Deshpande, Indian – American Venture, Capitalist & Entrepreneur

Institution’s Innovation Council of Karaikal Polytechnic College, Karaikal organized Twitter Live Session and Critical discussion of “Leadership Talk Series” with **Dr.Gururaj “Desh” Deshpande, Indian – American Venture, Capitalist & Entrepreneur conducted by MHRD’s Innovation Cell & AICTE – Organized by – Institution’s Innovation Council (IIC) of Karaikal Polytechnic College on 21th April 2020 despite of COVID 19 Outbreak.**

Thiru.D.SANDANASAMY, Principal cum President-IIC of Karaikal Polytechnic College sincerely thank AICTE-MHRD for taking lot of efforts for the welfare of the student community, Also he stressed the importance of this programme and motivated the students to attend this types of live session in future. He also congratulates The Convener and their Team members for their efforts of bringing this sort of programmes for the benefit of the student’s community. The Convener IIC express his sincere thanks to all the students and faculty members who were actively participated in the live session in spite of CORONA Breakdown.

This is yet another interesting session from MHRD innovation cell by 'Desh' Deshpande, USA, Investor & Entrepreneur on innovation and entrepreneurship. The biographical journey of Mr. Deshpande from a Village School in Hubli (Karnataka, India) to a wealthiest person in US and appointed as a coacher for national advisory council dealing with innovation and entrepreneurship in 2010 by then president of US, Barak Obama, itself is an inspiration to the viewers.

Briefing about dealing with biggest success and biggest failure in life to the students, he said that life is an opportunity for everybody whether problem becomes an opportunity or problem becomes a problem is all in our mindset and our own perception. In this rapid changing world, our ability to adapt to the situations, ability to deal with the problems and being excited about finding solutions to the problems makes us successful irrespective of our education whether it is from a premier institute or any other educational institutions.

Speaking about the post COVID crisis that this world is going to face, Mr.Deshpande said that there is going to be lot of changes in the way we look at the world.

There is going to be two kinds of perceptions among the people, one is to gradually accept the change or to look for the solutions to serve the world in a better manner. WEC (World Economic Council) said that the world is in need of 70 million entrepreneurs because the future is not going to be the same where there will be companies where thousands and thousands of people working to finish same kind of jobs. Many companies are going to have only few hundreds of people who thrive on driving the change. These opportunities of new entrepreneurs will be high as we go through this COVID.

He delivered many valuable advises to the student community and saying that instead of complaining about the problems, we should look for the solutions with available resources. With the latest development, the gap between the technology and the usage is diminishing rapidly. We don't need to have highly sophisticated laboratories to conduct the experiments in the field of nano-technologies, but the results obtained in these laboratories are available to everyone anywhere in the world. Therefore, as a student we have access to expertise, access to technology and access to problems. So an entrepreneur can take the advantage of all these resources to become successful.

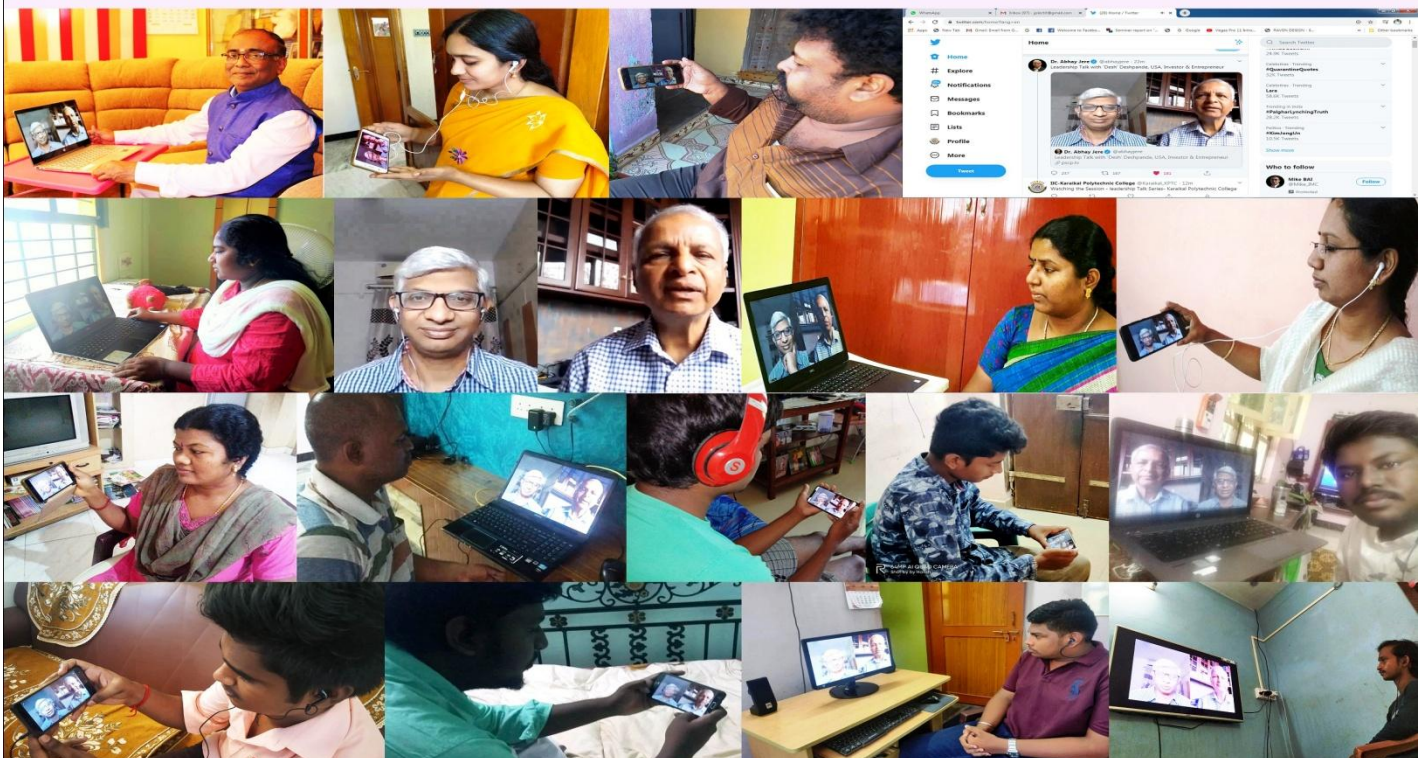

Also advised students to become a good entrepreneur, one should have a visionary approach to the solutions of the problems in an innovative manner.
